

JEFF D. JOVES

Failure / Data Analyst

Curious by nature and driven by purpose, I enjoy exploring data to uncover patterns that matter. I believe in the power of teamwork, clear communication, and using visuals to make complex ideas easier to understand. My goal is always to turn information into insight—and insight into action.

Financial Market Analysis

WORK EXPERIENCE

**Sanyo Denki Philippines Inc. Subic
bay Free Port Zone**

Failure / Data Analyst

February 2024 - August 2025

- Conducted comprehensive electrical inspections of products to ensure compliance with quality standards and specifications.
- Verified and debugged machine programs to detect issues affecting functionality and reliability.
- Performed root cause analysis (RCA) on product failures using data-driven methods to support effective troubleshooting and long-term corrective actions.
- Analyzed failure reports and organized quality data to identify recurring issues and support continuous improvement efforts.
- Monitored key quality metrics to proactively detect deviations and reduce quality risks.
- Collaborated with customer claims, engineering, and materials teams to investigate reported issues, communicate findings, and implement cross-functional quality enhancements.
